SUMMARY

Motivated and passionate aspiring frontend developer with hands-on experience in modern web technologies. I aim to contribute to impactful projects and continuously enhance my skills through collaboration and problem-solving.

Technical Skills

- Angular 19 , PrimeNG , Angular Material .
- JavaScript , TypeScript .
- HTML5, CSS3, SCSS , Bootstrap, Tailwind CSS .
- VS Code ,Git & GitHub , Canva (for UI/mockup designs)

EDUCATION

Bachelor's Degree in Science
Al-Azhar University – Faculty of Science
Graduated in 2020 with "Very Good" grade

Courses & Training

- Jonas Schmedtmann Courses
- Advanced JavaScript & Front-End Development
- Route Academy
- Front-End Developer Intern – Focus on Angular.js at ECIT
- Self-Taught

PROJECTS

1.AngularE-commerce Project :

I have developed multiple E-commerce projects using Angular, incorporating various features and best practices to enhance performance, scalability, and user experience.
Features Implemented:
User Authentication (Login, Signup, JWT-based authentication)
Product Management (View, Search, Filter, and Sorting)
Shopping Cart & Wishlist (Add, Remove, and Update Items)
Checkout & Payment Integration (Order Processing & Secure Payment Handling)

2. Bookmarker : JS

very simple design using bootstrap , html and css . the point here that I just made in some skills I've learned in JavaScript , you can visit your websites easily and delete them . if you reload page the browser will keep everything same tthis why I used

3. Todo Management Application : JS

Real-time Progress Tracking: A progress bar visually tracks the percentage of completed tasks compared to the total.

4.Angular State Management :

Built amodular Angular appusing Standalone Components and Clean Architecture. Integrated NgRx for state management, RxJS for reactive patterns, and lazy-loaded features (Users, Dashboard, Notifications). Implemented real-time charts, custom forms with validators, WebSocket simulation, and performance optimizations with OnPush strategy and smart RxJS usage.

5.Purchase Invoice : Angular

Smart supplier selection with auto-filled contact & banking info
Dynamic item table with quantity × unit price auto-calculations
Grand total calculation in real-time
Prepared for future API integration
Fully responsive UI with modern UX using Angular Material

SOFT SKILLS :

- Communication: Active listening to understand requirements and feedback.
- Teamwork: Resolving conflicts constructively.
- Time Management: Prioritizing tasks to meet deadlines.
- Attention to Detail: Writing clean, error-free code.
- Emotional Intelligence: Managing stress effectively in high-pressure situations.

Languages :

- English: Intermediate/Advanced
- Arabic: Native

ADDITIONAL SKILLS :

Ihavebeenworking asonline Quraan and Arabic teacher for non Arabic speakers for about more than three years.
